

PACIFICA and PEACE & FREEDOM

– *We need to save both voices!*

These two voices on the Left are under attack. Pacifica is being caught up in the “corporatization of just about everything” mentality that is gripping the country.

The Peace and Freedom Party is one of the few non-corporate electoral voices. The California Secretary of State has aggressively challenged the ballot status of P&F. As a result, we need about 20,000 more registered voters in order to compete in the 2002 elections.

Fair coverage of third-parties just isn’t going to happen in the corporate media. The issues that Peace and Freedom voters care about, including Mumia Abu-Jamal, immigrant rights, universal health care, public ownership of gas and electric production and distribution, the prison-industrial complex and jobs or income for all, will only be aired on progressive radio stations like KPFB and KPFA.

These are just a few reasons why taking back Pacifica is so important.

✓ **SUPPORT THE CAMPAIGN TO STOP THE CORPORATE TAKEOVER OF PACIFICA**

✓ **SUPPORT THE BALLOT STATUS OF THE PEACE AND FREEDOM PARTY BY REGISTERING – AND VOTING – P&F**

Both Pacifica and P&F have been strong voices for the voiceless since the 1960s. Yet, they can both become much better if we all become active in their support.

The L.A. Organizing Committee is working to make Peace and Freedom a stronger and more dynamic party. It has been the only democratic socialist party on the ballot for the last 25 years. This unique voice should not be silenced.

If you are one of the tens of thousands of socialists, progressives and leftists in California, please consider how important it is to have a “multi-tendenced” voice of the left on the ballot.

HERE'S WHAT YOU CAN DO TO HELP:

1. **Register Peace and Freedom** (you can still vote for candidates of any party)
2. **Ask others to register P&F** (forms are available at post offices and libraries.)
3. **Become active in our organizing committee or in P&F.**
